The meeting opened at 6:05 p.m.

The Board had a general discussion/conversation regarding the 2012 budget. There was no one from the general public to comment on the budget.

Audit bids are being collected by various auditors in the area.

## OLD BUSINESS:

Dallas Hyde has spoken to Fire Chief Nash about the repeater and while it is working there is no signal. The issue is between the dispatch and the repeater (the paging system). Dallas is looking for the problem with the Paging System and 911 in Onaway and Waverly. No one else is having a problem. Onaway would like to be dispatched from Cheboygan. When the EMS/Fire personnel receive the information from Cheboygan and the patient hangs up, they still receive the name, address and location of the patient and can proceed directly to the location. However, when receiving information from Rogers City they must repeat all the information, taking up valuable time. To solve the problem they feel they need to put pager repeater on the tower. Rogers City does however, google maps on line and get and give directions.

Rogers City needs the enhanced 911 and while Cheboygan has this capability, Rogers City does not. With enhanced 911 the individual can hang up and the EMS will still receive their name, address and directions to the location. Cheboygan is up grading their system on the tower.

Old Business continued:

A Motion was made to approve the new budget of \$374,000.00, followed by the billing report.

Because of increasing fuel prices there was a Motion to increase the fuel allowance from \$16,000 to \$25,000 for the year increasing their budget by \$9,000 for the year 2012.  
Motion approved.

The Board also chose to join the Chamber of Commerce.

The meeting was adjourned at 6:40 p.m.

Respectfully submitted by:

Patricia M. Augustine, Trustee from the Bearinger Township Board  
on behalf of Kay Dowker who was absent due to a broken leg.
